

# Priorit.io

## Data for next-level leaders

# The Problem

SMEs are not growing. They lose out on investors, pro services & support, and top talents. Almost every leader understands the importance of data, but only less than 2% actually benefit from it in their leadership. This is mostly because of the lack of tools and knowledge.

SMEs aren't growing after reaching \$2M in revenue\*

of all the companies globally are SMEs\*

of leaders wants to be data-driven, but don't know how\*

\*\$2M Growth gate starts a new era of leadership:

- At the top of how the company's success equation is solved? by Olli-Pekka Lumijärvi
- The Five Conditions Assessment, True Space & Gallup, 2020
- The Power of Data-driven Enterprise, Accenture 2019

# The Solution

Priorit.io is a SaaS tool that helps business leaders analyze, measure, monitor, and support sustainable growth with relevant data and get specific guidance to achieve it - while keeping people at the center.

improved EBITDA  
after a year on  
average\*

minimum return  
of investment  
(ROI)\*

faster data gathering  
compared to  
traditional methods\*

\*Based on results from 150 Priorit.io's proof of concept and pilot program companies

# How Priorit.io Works?

[See How Priorit.io Works on Youtube](#)

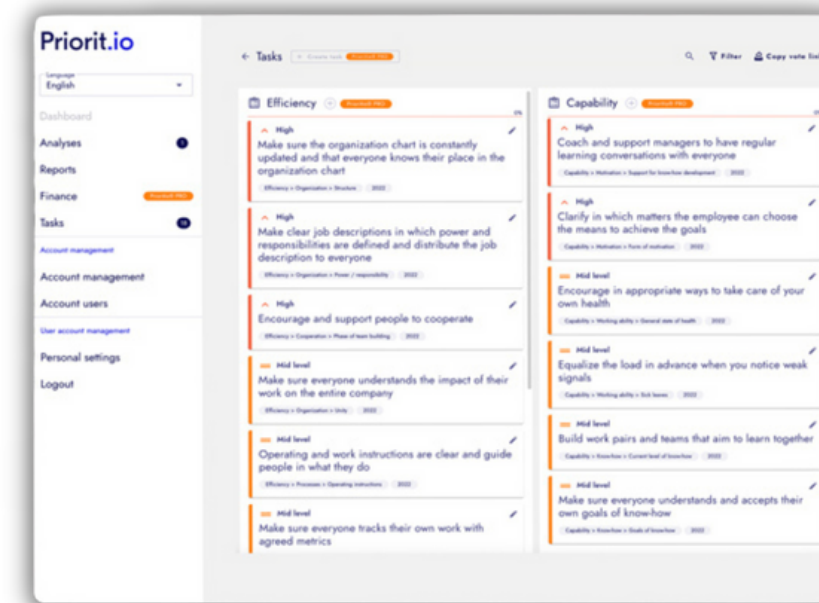

## 1. Collect data

Involve your talent and ask them what they think about their work right now.

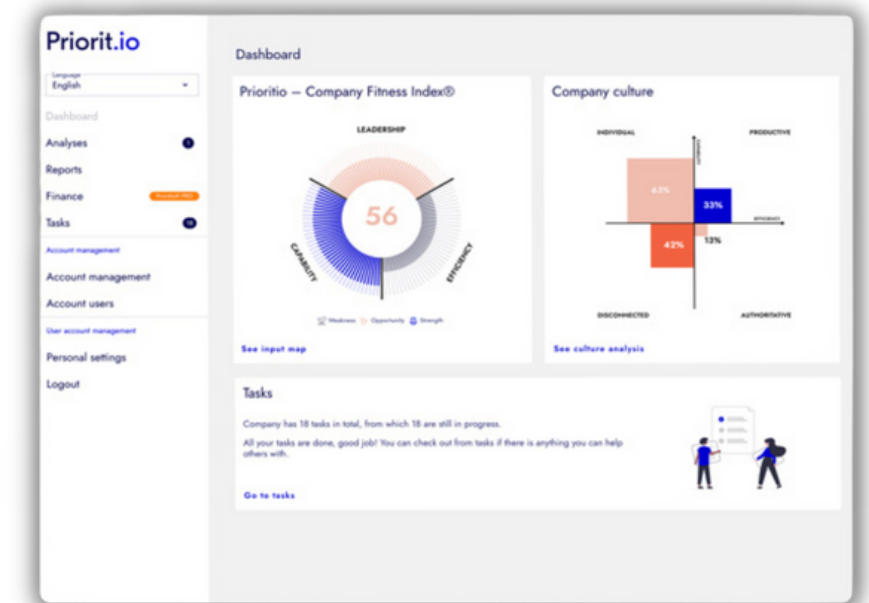

## 2. Analyze

Find out your company's current condition in factors that matter.

## 3. Get a roadmap

Find out what to do next in order to develop a better business.

## 4. Evaluate

Follow how your development process affects your business.
